

# Professional partner in wire harnesses and assembly services

**EFC Finland Oy**  
**EFC Estonia OÜ**

[www.efc.fi](http://www.efc.fi)

[www.efc.fi](http://www.efc.fi)

**TRUSTED  
PARTNER  
FOR HUNDREDS  
OF CUSTOMERS  
FOR ALREADY  
50 YEARS**

EFC manufactures high-quality wire harnesses in Vaasa and Tallinn for several customer segments. We also make electromechanical assemblies to facilitate our customers' daily lives.

Together with our two sister companies that supply wire harnesses, we are one of the leading Nordic wire harness manufacturers.

We have excellent collaboration with the world's leading suppliers that enable us to offer fast and flexible delivery times at a competitive cost. In Finland, we are known as a local provider of agile and tailored services from product design to prototypes and serial production – for all needs of customers of all sizes.

Feel free to have a closer look how we can help you!

Visiting Address: Teollisuustie 7, 65610 Mustasaari, Finland  
Phone numbers: +358 (0)40 125 2274 and +358 (0)40 125 3544

- Provider of a wide range of heat shrinking and sealing materials
- Specialized in rubber, plastic and silicone products
- Designing and manufacturing of customized tools for both molding and extrusion processes
- Planning of storage facilities (shelves and LED lighting)
- Working with a global supply network and certified manufacturers

**“In a competitive market where our delivery times and price are our lifeblood, we need to be surrounded by trustworthy partners. EFC has responded to this request with flexible operations and solid professionalism.”**

**Nora Möttönen**  
Production Director, Escarmat

## CABLE AND WIRE HARNESSSES

**We design and manufacture wire harnesses tailored to each customer's needs.**

Everything starts with thorough planning and close collaboration with the customer. Our competent staff helps both choosing materials as well as developing procurement channels and production methods. Our goal is to find a solution for each of our customers that is as cost efficient as possible both for one-off projects as well as for serial production.

The E<sup>3</sup>.series design software we utilise is integrated with our automatic machines, enabling efficient and high-quality serial production. In addition to traditional ISO standards, our production follows the IPC-620 standard.

**Please contact us if you need any of the following:**

- Cables with a cross-sectional area of AWG28 (0.08 mm<sup>2</sup>)–300 mm<sup>2</sup>
- Anything from individual prototypes to orders of tens of thousands of pieces
- Anything from simple cables to complex wire harnesses
- Wire harnesses for work machines and special vehicles
- Design and product development of wire harnesses
- Outsourcing manufacturing, enabling you to focus on your core business

 **SOP METAL**

expertise

Copper

Aluminum

Stainless steel

Electricity isolating

**SOP-Metal Oy** | Airport Park | Liikekuja 2, FI-65380 Vaasa | Tel. +358 (0) 207 559 250 | myynti@sop-metal.fi | [www.sop-metal.fi](http://www.sop-metal.fi)

**“Jukolux Oy has outsourced the assembly of LED lighting used in explosive industrial environments to EFC. EFC has been capable of fulfilling our strict quality requirements.”**

**Johan Ågren**  
Head Of Business Development, Jukolux Oy

## ASSEMBLY AND OUTSOURCED COMPREHENSIVE SERVICES

**In addition to wire harnesses, we also carry out assembly work tailored to the customer's needs.**

We specialize in electromechanical assemblies. We have a dedicated production line, for example, for customer's lighting assemblies. We also have a wide range of experience on the assembly of connection boxes, control units and electrical devices.

Completed assemblies can be delivered directly to the installation location, if needed.

This enables an efficient production process and a short throughput time for the final product.

In addition to design and manufacturing, we provide the customer with the storage and logistics services they need. We carry out tests in accordance with standards and customer requirements to ensure high quality products and services.

**Please contact us if you need any of the following:**

- Professional resources and production facilities
- A certified (ISO 9001 & 14001) partner whose ERP system is tuned for your use
- You are looking for partner whose core competencies include procurement, manufacturing, storage and logistics
- You are looking to save costs and minimize working capital
- You want a reliable partner to take on all of your challenges related to production and quality
